In an effort to help improve regional economic development in Northeast Ohio, The Entrepreneurs EDGE is working with a number of universities and Chambers of Commerce in the region to create programs and services that will help mid-market companies (that sell some of their goods or services outside the region) to grow in value, spin-out new stand alone businesses and create new business concepts. EDGE stands for **Economic Development through Growth & Entrepreneurship** and is a 501(C)(3) non-profit organization.
